1. Contact the designated Central Fill Longs Drugs Pharmacy location in your area (the phone number for each pharmacy is included in the attached listing) and speak with a pharmacy representative. *(Please have the Times Pharmacy location and the prescription number available).*
2. The Longs Drugs pharmacy representative will assist you and provide you with further instructions.

Note: *The process of transferring a prescription may take up to 24 hours to complete. If you do not wish to transfer the prescription, you may contact your physician to request a new prescription and have your physician call or fax the prescription to Longs Drugs. However, if you need to obtain your prescription on that business day, your physician must instruct Longs Drugs to have the prescription available for immediate pick up.*
